

Agency API V1.0
By Osoft Integrated Resources Limited
Version: Paydirect Payments (Kaduna State Internal Revenue Service)

This API document is a general REST API documentation to consummate the OSOFTPAY services. However, this version is tagged for the Kaduna State Internal Revenue Service (KADIRS) because of the method of payment as its concerns KADIRS.

The integration has two simple legs namely:

1. Call for Payment Reference
2. Call for Payment Validation

Call for Payment Reference

Type: application/json

Endpoint: <https://agency.osoftpay.net/api/AgencyCustomers>

Method: POST

Payload:

```
{
  "customer_Name": "Eniola David",
  "customer_Phone": "08056324588",
  "customer_Email": "eniola@gmail.com",
  "originating_State_Code": "xxxxxxxx",
  "transaction_Amount": "500",
  "payment_Item_Name": "Court Fine"
}
```

Expected Response:

```
{
  "status": "00",
  "message": "Payment Reference Generated",
  "data": {
    "paymentReference": "331253283218",
```

```
"customer_Name": "Eniola David",  
"customer_Email": "eniola@gmail.com",  
"customer_Phone": "08056324588",  
"transaction_Amount": 500  
}  
}
```

Note: originating_State_Code will be provided for you upon go live for the needing agency you are generating the reference for.

Payment Instruction

The payment Reference from the response above “331253283218” can be taken to any bank for payment or on any recognising channels such as Interswitch (Paydirect, Quickteller), Remita Bank Branch or NIBSS’s Ebills.

Notwithstanding, this integration is limited to Kaduna State Internal Revenue Service and only Paydirect, Quickteller and Remita payments are recognised.

To make payment, take the reference any bank branch and tell the cashier you want to make payment on “**Kaduna State Collection – OSOFT**” under Paydirect. You are to provide them with the Payment Reference generated.

Alternatively, Go to Quickteller, Search for “**Kaduna State Collection – OSOFT**” under pay bills, enter the Payment Reference and proceed to payment. (Here you can pay by transfer, debit card, qr code or wallet).

After you have successfully made payment, there is need to validate the payment. The next endpoint shows you how to.

Call for Payment Validation

Endpoint: https://agency.osoftpay.net/api/CallValidation/{Payment_Reference}
Method: GET

Parameter: Payment_Reference. (You are expected to pass the payment reference into the request and make your call to get the status of the transaction)

Response for Successfully Received Payment:

```
{
  "customer_Email": "support@osoftpay.net",
  "customer_Name": "yussura business and gas nig. ltd. ",
  "customer_Phone": "08035878525",
  "payment_Reference": "446801291946",
  "transaction_Amount": 10000.0000,
  "payment_Item_Name": "Survey/Planning/Building/Development Fees",
  "payment_Status": "Successful",
  "sessionId": "ZIB|Web|3QTI0001|KSMC|150724143838|VQU3VEJCQNV"
}
```
